#### **HOW TO USE THIS GUIDE**

A copy of this guide should be placed in every classroom, gym, cafeteria, office, and other prominent locations. This guide should be a product of the school's emergency readiness and response plan. For best results, present the guide during staff training at the beginning of each year. Review the procedures with the entire school staff so that everyone in the schools understands his/her role in an emergency. This guide is intended to serve as a reference for educators, administrators, students, and staff. This plan does not replace common sense, sound judgment, and prudent actions in response to emergency situations.

#### **PURPOSE**

A continuity of Operations Plan, or "COOP" is an effort of the Takini School to ensure that essential functions of Takini School continue to be performed during a wide range of disruptions to routine school functions, including localized infrastructure outages and natural, technological, or human caused disasters along with other events that could disrupt school activities and pose a threat or danger to the health and safety of Takini School students and staff. This plan establishes a procedure to ensure that essential functions and activities of the Takini School are able to continue or be reactivated as quickly as possible during the full range of events that could disrupt the routine operations of Takini School. Takini School is committed to maintaining and rapidly restoring essential services to students and staff in the event of an emergency or disaster. In the event that there is an emergency or disaster it is imperative that services and school functions be resumed as quickly and safely as possible.

The intent of the COOP is to minimize disruption to the primary objectives of the Takini School while protecting student, staff and visitor health and safety. This can only be accomplished by pre-planning and taking steps to limit any potential disruptions to a predictable acceptable period of time. The plan also provides for the personal safety and security of students, staff and visitors. This is to be accomplished by maintaining emergency and security plans in key areas of Takini School, conducting training and holding exercises at Takini School.

This plan meets the Department of the Interior requirements for Continuity of Government planning.

- Federal Suspected Child Abuse and Neglect, Critical Incident, and, Employee Incident Reports

#### **AUTHORITY TO ACTIVATE PLAN**

During an event that requires activation of the Takini School's COOP, emergency employees and other special categories of employees will be activated by the Chief Administrator. In the absence of the Chief Administrator and in a situation that requires the activation of the COOP the Principal shall have the authority to activate the COOP.

Any time the COOP is activated the person responsible for activating the plan shall immediately notify the Takini School Board Chairperson, the President of the Cheyenne River Sioux Tribe and the CRST Emergency Command Center.

#### **DEFINING ESSENTIAL FUNCTIONS**

While all school functions are important, each activity may not be considered an essential function that must be continued during a disruption. The following are considered essential school functions:

- continuity of education, which includes teaching and learning, special education and related services, school-based medical services and food programs.
- communications (internal and external),
- computer and systems support,
- facility use/maintenance,
- business services (e.g., payroll), and
- the provision of safety, security, mental and behavioral health services.

#### **PLAN OBJECTIVES**

- Assist school personnel in understanding their role in an emergency.
- Provide for the safety of students, staff and visitors to Takini School.
- Ensure performance of Takini Schools' essential functions.
- Avoid or reduce unacceptable disruptions to Takini Schools' essential operations. Protect essential equipment, records, and other assets.
- Minimize damage and losses.
- Provide organizational and operational continuity.
- Facilitate the leadership decision-making process during an emergency.
- Achieve an orderly recovery from emergency operations.
- Mitigate risks by identifying and meeting emergency needs before an emergency occurs.

#### **EMERGENCY SEVERE WEATHER PROCEDURES**

Sheltering provides refuge for students, staff, and the public during school hours or extracurricular activities during an emergency. Shelters should be located in areas that maximize the safety of inhabitants. Safe areas may change depending on the type of emergency:

	Identify safe area(s) in each school building.
	K-12 Principal warns students and staff to assemble in safe areas;
	bring all persons inside the school building(s).
	Teachers take class roster and account for all
	students after arriving in a safe area.
	Close all exterior doors and windows.
	All staff and students must remain in safe areas until notified by the
emerg	gency responders.

#### **ASSAULTS/FIGHTS**

First, ensure the safety of students and staff.
All staff in the area need to help de-escalate and defuse the situation,
by separating the individuals and/or dispersing the area of students.
Staff will also seal off the area where the assault is taking place.
Notify the building principal.
K-12 Principal notifies Superintendent/Administrator if a weapon was used in
the assault, if a victim has physical injury causing substantial pain or
impairment of physical condition, or if the assault involved sexual contact.
K-12 Principal notifies the Superintendent/Administrator and
parents/guardians of student(s) involved in the assault.
Document all actions. Ask victim(s) and/or witness(es) for their account of
the incident.
Assess counseling needs of the victim(s) and/or witness(es).
Implement post-incident procedures, if necessary.

#### **HAZARDOUS MATERIALS/CHEMICAL SPILLS**
